

BE READY

for a TCF Workday!

*Follow these tips
for a successful
workday*

Pack plenty of water and a snack.

Bring sturdy work gloves, preferably sturdier than cloth gardening gloves. In the winter, consider lined work gloves or ski gloves if you do not have warm work gloves.

Wear or bring bug repellent in the spring, summer, and fall.

Leave valuables like electronics and jewelry at home.

Always wear sturdy, closed-toe shoes that can get dirty. In the winter, consider waterproof, lined boots. Do not wear open-toe shoes like sandals or flip-flops.

Dress in layers and always wear long pants and long socks. In the winter, consider wool socks, a winter hat, and winter (work) gloves. In the summer, consider light-colored, loose clothing.

Wear or bring sun protection like a hat or bandana, sunscreen, and sunglasses.
