Join us for this annual river clean-up event that empowers residents to improve local rivers by removing trash from DuPage River and Salt Creek waterways. Find out how you can make positive change while working together with members of your community.

Benefits are Many

Since the DuPage River Sweep was launched in 1991, more than 16,000 volunteers have removed over 300 tons of garbage from the DuPage River and Salt Creek waterways! Volunteers help make our streams and communities more attractive while improving water and shoreline quality for the benefit of wildlife and recreation. Have fun while getting some exercise and meeting other service-minded individuals.
